

KUMHO TYRE

All-ways, Go With you

ROAD VENTURE AT52

Light Truck All Terrain

Designed for the drivers of pickup trucks, sport utility vehicles and jeeps, the Kumho Road Venture AT52 blends the perfect combination of performance to take command of rugged terrains, deliver on-road comfort and instill a confidence inspiring all-season ride. The Road Venture AT52 will provide year-round traction in any situation including winter condition driving.

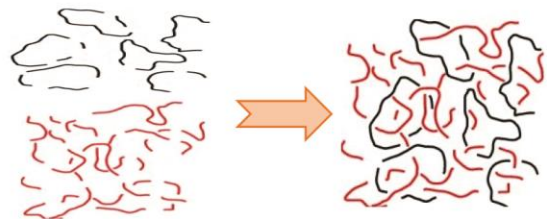

Long-term Durability

- ▷ Robust belt package for durability and high-speed capabilities.
 - Enhanced under tread gauge
 - High tensile steel belt and cap ply application stabilize and support a balanced footprint.
 - Reinforced carcass to combine durability with ride comfort.

Wear Resistant Compound

- ▷ Resistance to cracking, chipping and tearing due to the application of an optimal polymer blend ratio for improved wear.

Features & benefits

A Long tread life

- All-Season, cut-and-chip resistant compound is molded into the symmetric tread pattern to resist irregular wear. Optimal polymer blend ratio application for even wear characteristics and appearance throughout the life of the tire.

B Wear resistant compound

- Resistance to cracking, chipping and tearing due to the application of an optimal polymer blend ratio for improved wear.
- Complex structure carbon black compound mixture enhances tread wear performance.

C Tread Design

Shoulder Block Design

- Rugged shoulder blocks with saw-tooth like edges for off-road traction. Multi-angle sipes and zig-zag grooves enhance all-season performance.

Interior Block Design

- Five pitch block variation layout to provide comfortable and quiet on-road operation. Balanced void ratio for off-road traction and on-road performance.

Center Block Design

- Large, interlocking tread blocks for enhanced durability and tread life. Application of rigid center blocks for improved handling and straight-line driving.

D Enhanced traction

- 3PMSF certified due to additional longitudinal snow traction.
- Multi-angle sipes and zig-zag grooves for all-season and snow traction.
- Rugged shoulder blocks with saw-tooth like edges for off-road traction.

E Extreme side-biters

- Rugged and aggressive side biter application. (100% increase in 3D biter depth over AT51)
- Augmented biter thickness for added protection against punctures.
