

KUMHO TYRE

REDEFINING OFF-ROAD DRIVING

ROAD VENTURE MT51

THE ALL NEW MT51 FROM KUMHO.

When it came to developing Kumho's latest mud-terrain 4WD tyre our engineers drew inspiration from Australia.

Known for our dynamic landscape and our love of the outdoors, there's no better place to put a tyre through its paces.

The brief... reinvent the traditional off-road 4WD tyre with a true all-rounder, capable of handling the harshest conditions while being just as comfortable on the road.

So after years of design and development with our local tyre experts and extensive testing in outback Australia, here it is...

Introducing the Road Venture MT51.

So if your work or play includes off-roading, camping, mining, farming, or even the school run this great all-rounder will exceed your expectations.
